

Orchidology's Own Hybrids

We have the following seedlings available, our seedlings have been hardened off for a period of 6-12 months and are a cost effective way to build an Orchid collection. Seedlings are priced at R60-100EACH . Available in 6-8cm pots/small baskets, or mounted. Where we can we have provided potential progeny descriptions as well as a picture of the expected outcome, progeny could vary from what we describe depending on genes and variance somewhere in the parents ancestry . Many of the oncidiums are first of their types and won't be found elsewhere . New seedlings will be added from time to time , please enquire at paul@orchidology.co.za / www.orchidology.co.za

Miniature Tolumnia

Terrarium &
Paludarium

OS1839.Tol. Jairak Rainbow 'Brown Red Yellow' x Sib. R85

Small miniature plants expected, progeny of the Jairaks will vary tremendously , whites, yellow, pinks , reds etc. with dots spots and splashes. Plants supplied mounted on small twig/piece of pine or in small pot/basket 4cm
