New Bundles

R380 per bundle of 6

Warm Tolerant Cymbidiums R380 for 6 small plants, 2 years to flower

Cymbidiums that flower in the sub-tropical areas.

These cymbidiums have warm growing species in their genetic make up which help them to flower in subtropical areas such as the KZN coast and Mpumalanga lowveld. These cymbidiums flower in the warmer months late Spring and Summer.

OS19110 Cym. (Neil Pagano x Green Santa) x Christian Heritage

Early flowering cymbidiums, March-April. Progeny will be warm tolerant. Yellows through to pinks.

OS1909 Cym. aloifolium x pumilum

Two striking pendulous cymbidiums crossed. Heat tolerant with novelty miniature cymbidium. Flowers will be pendulous. First of its kind. Near Flowering Size

OS2027 Cym. Maureen Carter x canaliculatum

Yellow brown spotted late flowering novelty.

OS2045 Cym. Pee Wee x Fifi 'Harry'

A cross between pendulous yellows, intermediate pendulous green to yellow expected.

OS2040 Cym. Fifi 'Harry' x canaliculatum

Heat tolerant. Novelty cross, should result in spotted yellows.

OS2050 Cym. Fifi 'Harry'

Large heat tolerant arching type, flowers late season October to November.

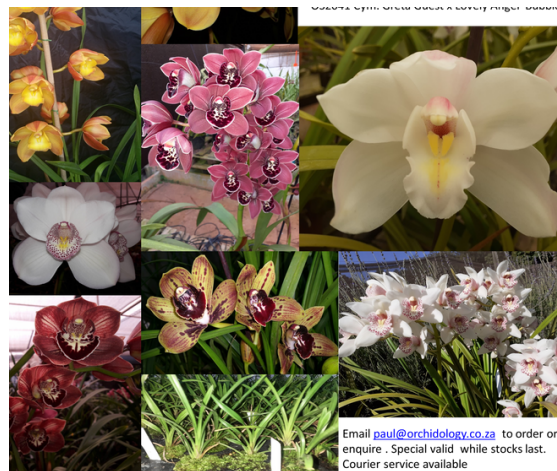

12-18 month seedling

Three new bundles have been released, Warm tolerant Autumn bundle 3 of 6 orchids which are suitable to grown and flowered in sub tropical areas ; new pendulous Autumn bundle 12 and new colourful standard cymbidiums Autumn bundle 13
